

Preparing For Roach Control and Extermination

Heavy infestation situations, it is highly recommended to follow up the initial treatment with service Monthly Program by Hired Killers Pest Control.

****No Areas will be treated while occupied by humans, patients, the elderly or infirm****

Preparation for Service:

Check List: PLEASE DO THE FOLLOWING BEFORE THE APPOINTMENT

- Empty out all kitchen and bathroom cabinets, both upper and lower cabinets.
- Empty out all drawers in kitchen and bathroom.
- Remove all small appliances from the counter tops. Large microwaves and ovens can stay where they are.
- Clean all appliances, counter tops, cabinets, drawers and kitchen/bathroom floors.
- Place all items from the cabinets on the table or in the center of the living room floor and cover with a sheet, blanket or plastic tarp.
- Pull refrigerator, dishwasher, and stove away from the wall enough so the technician will be able to get behind them.
- Vacuum all floors making sure to get really good around the baseboards, this will help with getting the roach eggs. Also vacuum the edges of the cabinets, and drawers for elimination of the eggs.
- Do not keep any unopened food out during treatment and place unopened food on table or middle of the living room and cover with sheet, blanket, or plastic tarp.

Please, be prepared and ready when the technician arrives. And please be prepared to be GONE FOR A MINIMUM OF 4 (four) HOURS OR UNTIL CHEMICAL IS COMPLETELY DRY. Please make sure ALL PETS, PEOPLE WITH BREATHING ISSUES, AND CHILDREN DO NOT RE-ENTER BEFORE ANOTHER PERSON MAKES SURE IT IS DRY.

After Treatment:

- After re-entry, make sure to clean all surfaces which will come in contact with food, and clean off bottom surfaces of cabinets.
- Be careful not to touch the roach bait.

- ➔ Vacuum up any visible dead roaches every day.
- ➔ Please do not LEAVE ANY FOOD, TRASH, GREASE, OR BEVERAGES OUT AT NIGHT. Clean sanitation practices are important in order to completely eliminate roach infestations.
- ➔ Be advised. It is normal to see an occasional roach for 2 weeks following treatment. Daily vacuuming will shorten the length of time this occurs.

We require all treated areas to remain exceptional clean and uncluttered to ensure total knockdown.
